Assessment Questions for Scholarship is a conversation

A single scholarly source does which of the following?

- Represents the view of all scholars in a field
- Represents an opinion
- Represents the view/research of the author
- Represents the correct ideas

When conducting scholarly research students must:

- Read all articles relevant to their topic
- Read only the articles that support their opinion
- Read only the articles that were published in the last year
- Read some articles that provide context for the research related to their topic

Students can contribute to the scholarly conversation.

- True
- False
